

# Title (Example 3)

C. Terakura<sup>A</sup>, M. S. Bahramy<sup>A</sup>, N. Ogawa<sup>A</sup>, I. Hirabayashi<sup>A</sup>, and Y. Tokura<sup>A,B</sup>

*RIKEN CEMS<sup>A</sup>, University of Tokyo<sup>B</sup>*

## Key Information

- Emergent Topological Phenomena
- Spintronics
- Multiferroics
- Interfaces and Oxide Electronics
- New / Exotic Superconductors

## Poster presentations

The objective of the poster session is to provide a venue for selected works to be presented in greater visual details and to facilitate vigorous discussions with interested attendees.

Each author is provided with a W900mm X H210 mm poster panel. The authors are expected to be present next to their poster throughout the session to explain their work to attendees.
