

# RIKEN Center for Integrative Medical Sciences

## RIKEN Center for Integrative Medical Sciences

- Laboratory for Cell Signaling
- Laboratory for Lymphocyte Differentiation
- Laboratory for Transcriptional Regulation
- Laboratory for Immune Cell Systems
- Laboratory for Human Disease Models
- Laboratory for Intestinal Ecosystem
- Laboratory for Developmental Genetics
- Laboratory for Integrative Genomics
- Laboratory for Disease Systems Modeling
- Laboratory for Medical Science Mathematics
- Laboratory for Pharmacogenomics
- Laboratory for Immune Regulation
- Laboratory for Innate Immune Systems
- Laboratory for Mucosal Immunity
- Laboratory for Gut Homeostasis
- Laboratory for Immune Homeostasis
- Laboratory for Skin Homeostasis
- Laboratory for Metabolic Homeostasis
- Laboratory for Immune Crosstalk
- Laboratory for Inflammatory Regulation
- Laboratory for Cytokine Regulation
- Laboratory for Immunogenetics
- Laboratory for Integrated Bioinformatics
- Laboratory for Tissue Dynamics
- Laboratory for Integrated Cellular Systems
- Laboratory for Metabolomics
- Laboratory for Microbiome Sciences
- Laboratory for Genotyping Development
- Laboratory for Genome Sequencing Analysis
- Laboratory for Statistical Analysis
- Laboratory for International Alliance on Genomic Research
- Laboratory for Autoimmune Diseases
- Laboratory for Digestive Diseases
- Laboratory for Bone and Joint Diseases
- Laboratory for Endocrinology, Metabolism and Kidney Diseases
- Laboratory for Respiratory and Allergic Diseases
- Laboratory for Cardiovascular Diseases
- Laboratory for Immunotherapy
- Young Chief Investigator Program
- Drug Discovery Antibody Platform Unit

Integrative Medical Sciences Planning Office
