RIKEN Center for Advanced Intelligence Project

RIKEN Center for Advanced Intelligence Project

- Generic Technology Research Group
  - Imperfect Information Learning Team
  - Structured Learning Team
  - Tensor Learning Team
  - Functional Analytic Learning Team
  - Succinct Information Processing Unit
  - Deep Learning Theory Team
  - Computational Learning Theory Team
  - Causal Inference Team
  - Approximate Bayesian Inference Team
  - Continuous Optimization Team
  - Mathematical Science Team
  - High-Dimensional Causal Analysis Team
  - Sequential Decision Making Team

- Goal-Oriented Technology Research Group
  - Cancer Translational Research Team
  - Medical-risk Avoidance based on iPS Cells Team
  - Molecular Informatics Team
  - Cognitive Behavioral Assistive Technology Team
  - Disaster Resilience Science Team
  - Robotics for Infrastructure Management Team
  - Machine Intelligence for Medical Engineering Team
  - Data-Driven Biomedical Science Team
  - Computational Brain Dynamics Team
  - Statistical Genetics Team
  - Pathology Informatics Team
  - Natural Language Understanding Team
  - Knowledge Acquisition Team
  - Language Information Access Technology Team
  - Geoinformatics Team
  - Music Information Intelligence Team
  - Sound Scene Understanding Team

- Artificial Intelligence in Society Research Group
  - AI Utilization in Society and Legal System Team
  - Science, Technology and Society Team
  - Decentralized Big Data Team
  - Business and Economic Information Fusion Analysis Team
  - AI Security and Privacy Team
  - AI Safety and Reliability Unit

- Computing Support and Operations Unit

- Office of the Center Director
